

Mosaic for Spring 2009

A Seasonal Spiritual Program for Women

Mosaics

Mosaics, like patchwork quilts, provide a wonderful image for women who want to become more focused, aware, and intentional in their spiritual lives. Varied bits of color and different materials used

in a mosaic can image for us many aspects and dimensions of our lives which we long to experience as a peaceful whole.

Mosaics change from time to time, and they will suggest some ways of praying and reflecting which can foster wholeness. We learn that no two mosaics are alike by looking attentively, through prayer and reflection, at the lives of our spiritual ancestors.

Despite disabilities imposed by customs, laws, covenantal status, vows, and worship, an exceptional number of women of wisdom, committed to God with admirable spiritual strength have gone before us in faith. Join together with other women to study, pray and share the lives of these Women of Faith -
